Special Release

02 March, 2024

DRIVING OF OFFICIAL VEHICLES

It has come to the attention of the University Management that there have been instances of individuals who are not designated drivers in the University of Ibadan, taking control and driving official vehicles. I must emphasize that this is a serious breach of conduct and is strictly prohibited.

Official vehicles of the university are designated for specific purposes and are entrusted to authorized personnel, for official use only. All staff members are expected to adhere to this policy and refrain from driving any official vehicle unless they are designated as drivers.

All drivers in the University are hereby reminded that all vehicles should be parked at designated parking lots, as only principal Officers are permitted by law, to park official vehicles attached to them in their houses.

It is pertinent to let all staff know that further breaches of this age long regulation, which amount to misconduct, will no longer be tolerated and violators will be made to face the necessary/statutory committee.

Thank you.

G.O. Saliu, *MANUPA, MNIM, MAUA.*
Registrar & Secretary to Council
