MANDATORY IMMEDIATE UNIT/DEPARTMENTAL RESPONSE TO COVID-19 CASES

Management hereby informs the University community that in case of any confirmed cases of COVID-19 infection, the following responses must immediately be adopted:

1. Unit/Departmental Task Force should decontaminate the affected premises. Hence, there is the need to set up such a Force at the Unit/Departmental level and equip it with basic materials for decontamination (Knapsack Sprayer, 60-70% ethanol, 0.05litres of NaOCl in 4Litres of water. A 16-litre knapsack sprayer requires 200ml NaOCl which can spray 4 rooms of 12 by 12 dimension);
2. Exposed persons should self-isolate, should NOT interact with the general populace, and seek testing within 5 days;
3. The Unit/Department should notify the COVID-19 Central Task Force of any further actions as may be necessary;
4. The Unit/Department should take responsibility for assisting and ensuring the infected persons adhere to the set guidelines; and
5. Everyone should take responsibility.

Thank you.
