In order to achieve its Terms of Reference, the Committee will undertake the following activities among others:

1. Production of a University research profile folder, which will be available for researchers to take to conference/strategic meetings for circulation/display at local and international conferences.
2. Production of a 5-yearly documentary on research and breakthroughs at the University of Ibadan which will be given a wide circulation on the DVC (RISP) webpage on the University website.
3. Production of quarterly update of on-going interview of targeted excellent researchers/awardees etc as an opportunity to showcase implications of research outcomes to relevant audiences. This will be alternated between Science, Technology, Engineering and Mathematics (STEM) and Arts and Humanities.
4. Production of annual policy brief in collaboration with researchers for presentation at the annual UIRESDEV based on their activities.

The attention of the University community is hereby drawn to this Committee for submission of research breakthroughs for inclusion in the University's research profile. Please contact the Secretary of the Committee for further details and submission.

Thank you.
