Special Release

13 April, 2015

STAFF AUDIT: NOTICE TO ALL MEMBERS OF STAFF

This is to inform the entire University community (Main Campus and the College of Medicine) that the University Management has set up a Staff Audit Committee.

The Committee is mandated to carry out a comprehensive audit of staff of the University as a key component of the ongoing computerization of the Bursary and the Audit processes in the University.

In view of the above, all members of staff are required to collect and submit duly completed forms to the Committee through their respective Heads of Unit/Department. These forms are being forwarded to each Unit/Department of the University. Staff are expected to submit these forms within a week of collection and subsequently present themselves for physical verification as may be arranged by the Committee.

Thank you.
