Special Release

30 June, 2025

### **TRAFFIC RULES**

In light of the recent reconstruction of the main road at the University First Gate, all staff and students are hereby encouraged to strictly observe traffic rules as applicable for the safety of all and for efficient flow of traffic.

Traffic lights have been installed at the crossing for pedestrians. Additionally, the road has been clearly marked with zebra crossings to facilitate safe pedestrian movement, requiring motorists to stop and yield passage to pedestrians. Pedestrians are specifically urged to observe and follow the pedestrian traffic lights. These measures are critical for ensuring the safety of all road users.

Furthermore, please be advised that cabs are not permitted to pick up and drop passengers at the entrance to the University (as done in the past). All individuals entering and alighting from cabs are requested to always use the designated passenger pick-up and drop-off points.

Your strict compliance with these directives is appreciated.

Thank you.
